

Mr. and Mrs. Client,

Thank You!

At first glance this might seem like an unusual gift for a Business Gift Set. It is our desire to provide our clients with service that is exceptional, and we feel it is only appropriate that a gift of gratitude reflects that same desire.

Cooking is an event that brings family and friends together. We often say here at Cutco that the kitchen is the heart of the home. For these reasons and more, we value high-quality tools in the kitchen. A good kitchen utensil is an item that gets used daily and therefore makes a useful gift.

We are confident this high-end Cutco gift will find good use in your kitchen.

All knives are sharp, however Cutco is SUPER sharp, so please go a little slower than normal for the first week :)

All Cutco products are backed by a Forever Guarantee and all service information can be found at www.cutco.com
